NCCER Electrical Training

Did you that one of the most in-demand occupations in the construction industry is electricians? Electrical jobs exist in new construction, renovations and repair in industrial, residential, and commercial settings. The electrical field is an exciting career with many opportunities for growth. BRCC offers the National Center for Construction Education and Research (NCCER) Electrical curriculum which provides industry based credentials that are both knowledge verified through written assessments and performance verified through performance verifications. Students will receive NCCER completion certificates for each level they complete for Electrical Levels 1-2. Textbooks are included in the \$150 fee. Topics include electrical theory, switches, distribution panels, residential applications, commercial application and industrial applications.
