Monday, January 15th, 10am-12pm

3325 Groom Rd. Baker Municipal Center

Community Planning and Capacity Building of FEMA will be releasing a plan this month to Mayor Waites for the City of Baker's long-term disaster recovery. This plan was developed over 4 months of intense strategic planning and gathering of ideas from Baker's Long-Term Recovery Steering Committee (LRSC). What makes this special is the fact that CPCB of FEMA put together what our LRSC identified as the most urgent projects for our city's best interests. This plan will also reflect our Mayor's vision for economic development that will make Baker more suitable for growth. This plan may potentially cause homeowners to see an increase in the value of their properties. We will inform you when this plan is approved for public release.

The purpose of this initiative is to provide a sustainable process to recruit, train, and develop North Baton Rouge residents for successful careers with local industrial employers. We train Pipefitters, Welders, and Electricians.

January 9th, 6:30pm

Baton Rouge Community College Acadian Campus
3250 N. Acadian Thruway E., Baton Rouge, LA
